ROCCOSHIELD
ANTI-VANDAL FURNITURE

Built for the Toughest Care.
Designed for Total Control.

The RoccoShield sofa is built for environments where ordinary furniture won't survive.

Fully encased in our seamless, fluid-proof FlexGuard coating, it's designed to resist vandalism, block contaminants, and offer total hygiene control. No seams, no stitching, no exposed materials. It's just one solid, high-resilience unit made for intensive use. Perfect for high-security wards, psychiatric care units, and detention facilities where safety, durability, and cleanability are non-negotiable.

- Extremely Durable
- Custom-Made Possibilities
- Fully constructed from foam

RoccoShield
FlexGuard Sofa Endura

The seamless design eliminates hiding spots for contraband and prevents dirt or fluids from seeping in. Cleaning becomes quick, simple, and hygienic.

Fully constructed from high-resilience CM46 FR foam that comply with CRIB5 tests. The top layer with FlexGuard coating has passed EN1012-1&2.

LOCALLY MADE

Precision-cut in Belgium and finished in the Netherlands with our rugged FlexGuard coating: a regional quality product, built to last.

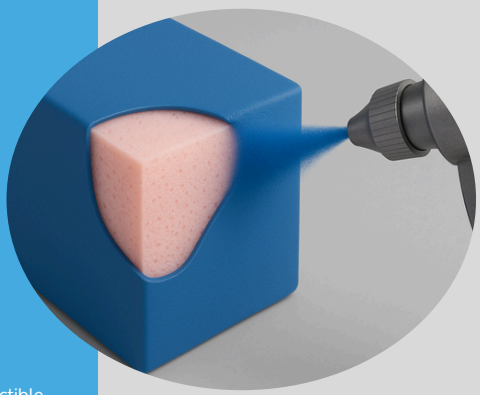
Specifications:

Two seats: 160x90x86 cm
Three seats: 220x90x86 cm

Custom sizes are also available

Materials:
- Core: CM46 Fire-Retardant Foam
- Outer Layer: FlexGuard Polyurethane Coating

Colour: Blue (Other colours available on request)



Completely water- & fluid resistant

The coating is directly placed onto the foam. This gives the sofa an extremely durable character.
