Gel-a-Med®

Medical sitting and lying

CE

Gel-a-Med® products are CE-marked; Regulation (EU) 2017/745 (MDR) and belong to medical device class I. Gel-a-Med® Certification according to 13485:2021, 9001:2015, 14001:2015

Product features of Gel-a-Med® seat cushions, surgical pads and positioning aids

Made in Germany. For more than 30 years, we have been manufacturing silicone gel products for you to the highest medical standards at our site in Düsseldorf. Gel-a-Med® products are used in hospitals, children's hospitals, outpatient surgery centers, rehabilitation clinics, senior citizen facilities, physiotherapy practices and in home care. Compliance with quality and environmental management in accordance with ISO 9001:2015, ISO 14001:2015 and ISO 13485, the internationally relevant standard for quality management systems of medical device manufacturers, as well as the European guidelines according to MDR guarantee first-class product quality.

Valuable properties

- High elasticity
- Optimum adaptation to body contours
- Even distribution of body pressure
- Cushioning, absorbing effect
- No sink in of body for maximum elbow room
- Form stability, temperature resistance
- Long-term flexibility
- Long shelf life
- Adaptation to body temperature
- Easy to clean and sanitize

Possible applications

- For decubitus prophylaxis and therapy
- For efficient pressure relief
- For prevention of circulatory failure and nerve damage
- Highly convenient and comfortable positioning of sensitive body parts
- For general well-being
- For long time sitting and lying

Seating cushions and toilet cushions
see page 26-29

The medical plus

- Made of high quality, health uncritical silicone
- Good skin compatibility
- Free of allergens, latex , harmful substances or plasticizers
- Leak-proof due to special molecule composition
- Up to 90 percent X-ray permeability

IF APPLICABLE IN YOUR COUNTRY!

Apply for aids from statutory health insurance!

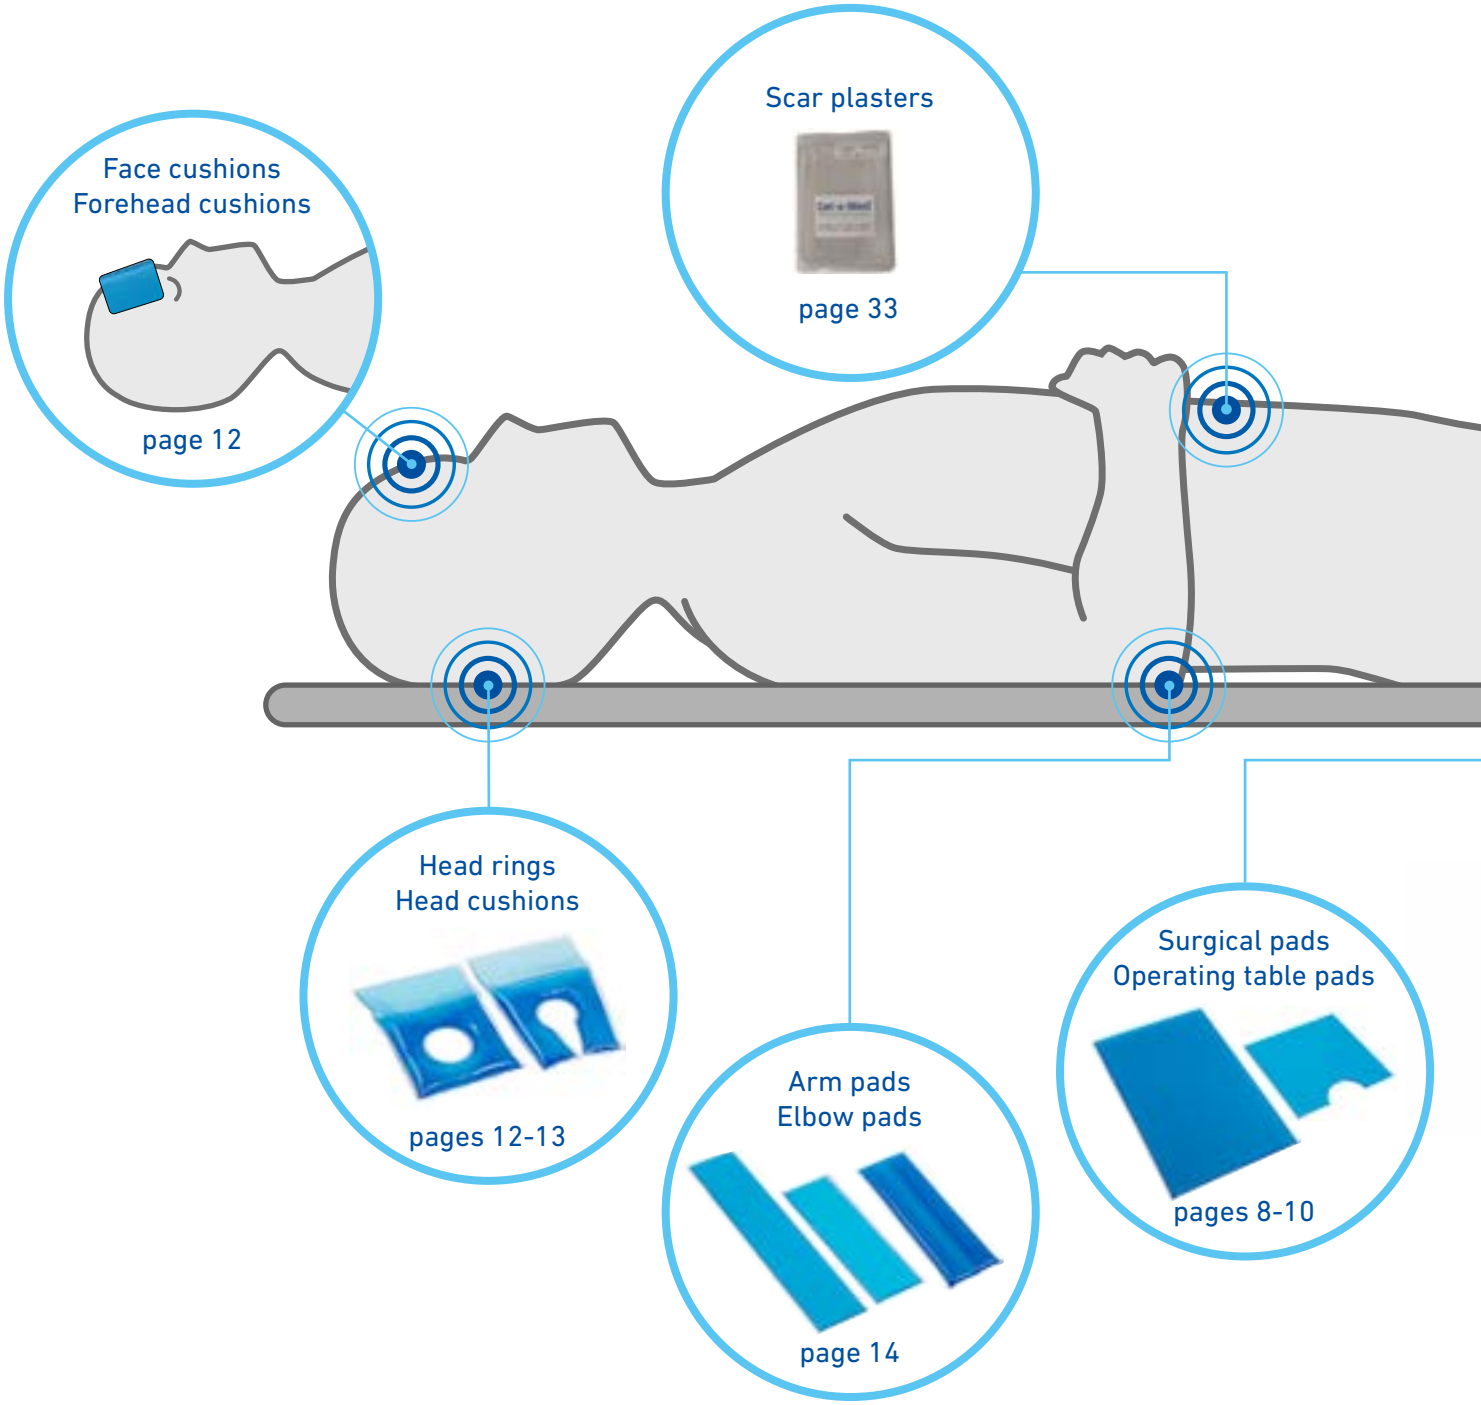

Gel-a-Med® seat cushions and toilet cushions can be applied for as aids from statutory health insurance

All-silicone products
Aids-Number: 11.39.02.0001

Gel-a-Med®
Medical sitting and lying

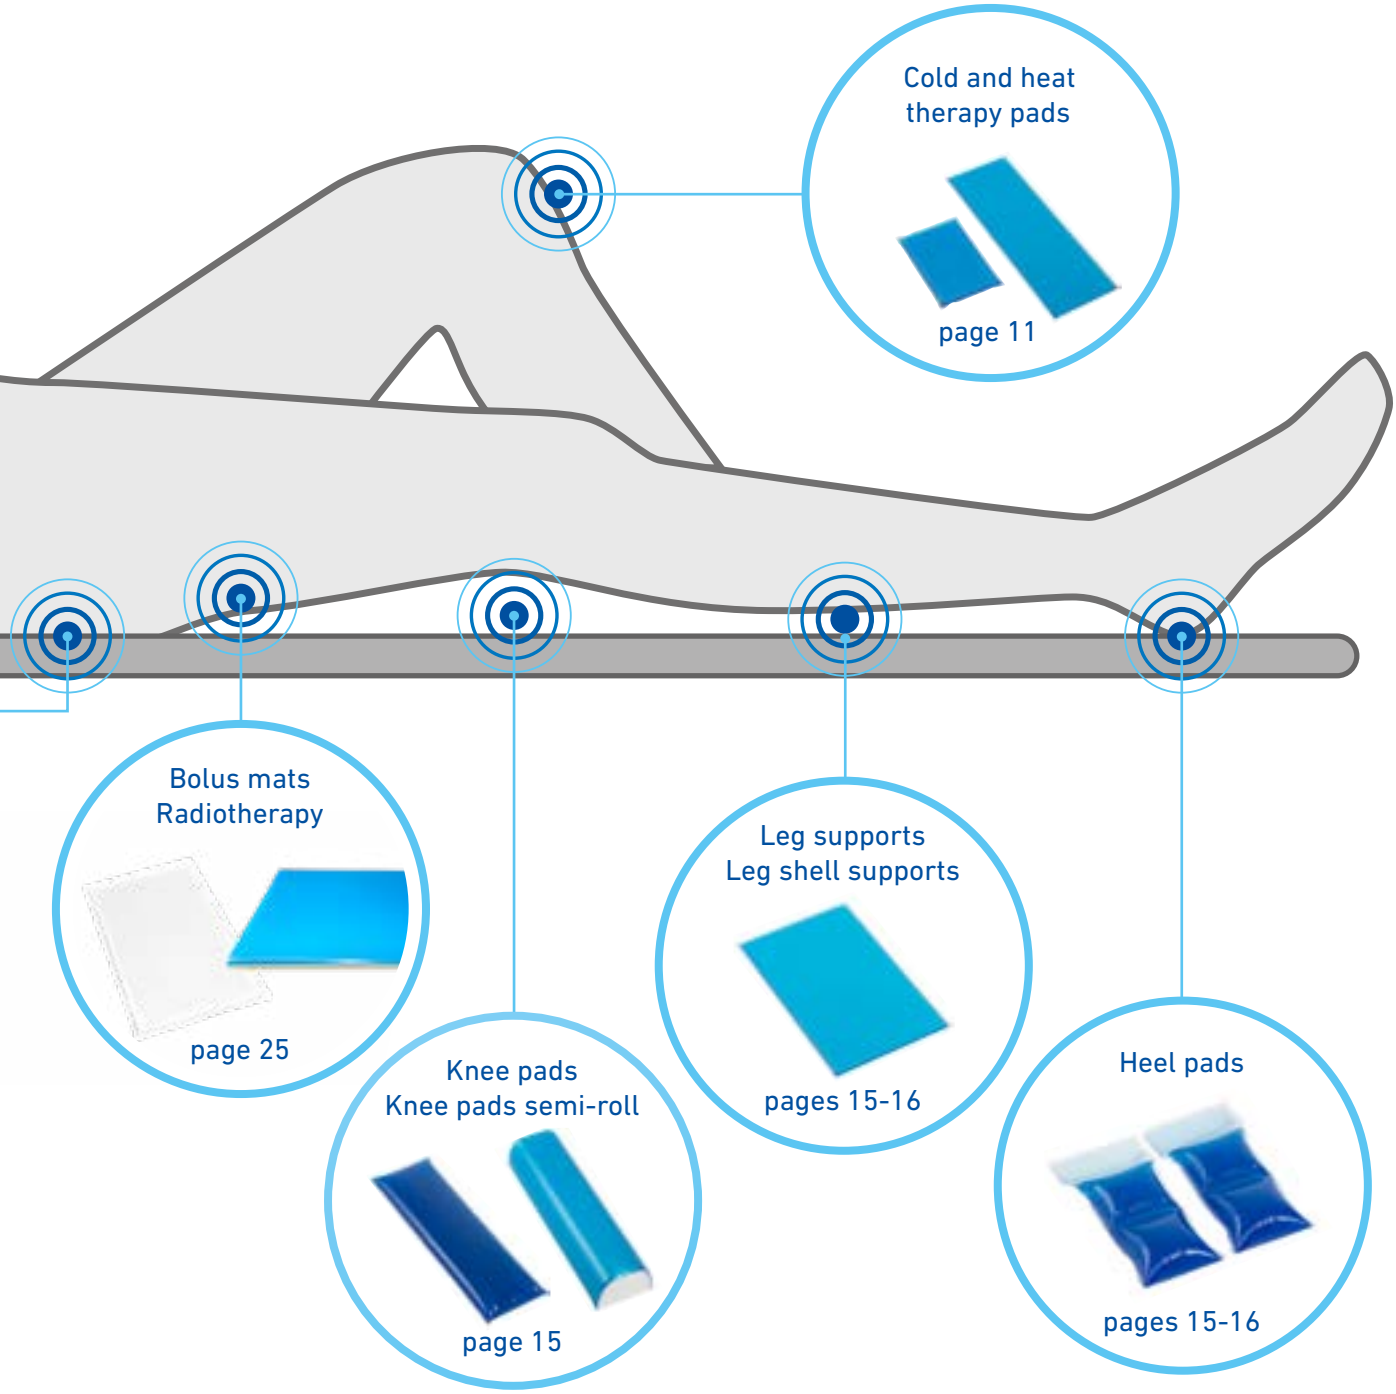

Gel-a-Med® pads ensure optimal patient positioning in the OR

During surgery, the body is exposed to particularly high pressure loads. Pressure ulcers as a result of prolonged positioning or shear forces develop deep within the tissue and often become visible only days later. Pressure ulcer prophylaxis during surgery through proper positioning and effective pressure relief is therefore necessary from a medical, nursing and economic point of view.

Gel-a-Med® surgical pads and positioning aids offer ...

- Best possible access to the surgical area
- Prevention of pressure sores/decubitus during and after surgery
- Prevention of circulatory disorders
- Prevention of nerve damage
- Easy handling

Gel-a-Med®
Medical sitting and lying

Advantages of Gel-a-Med® products made of pressure relieving silicone gel

Quality from the leading manufacturer in Germany

Gel-a-Med® medical products made of high-quality silicone gel have been produced entirely in Germany for 30 years - for clinics, outpatient surgical centers, nursing homes and the home care sector. Trust in the experience of the German market leader.

Highly flexible

Due to the unique molecular structure of the silicone gel, Gel-a-Med® medical products are highly elastic, soft and pliable and they reduce the shearing forces acting on the body to a minimum. Furthermore, they permanently retain their shape and they are leak-proof.

Certified medical product

Gel-a-Med® medical products are manufactured in compliance with high legal standards. Gel-a-Med GmbH is certified according to DIN ISO 13485 for Class I medical products.

Skin compatible and antiallergic

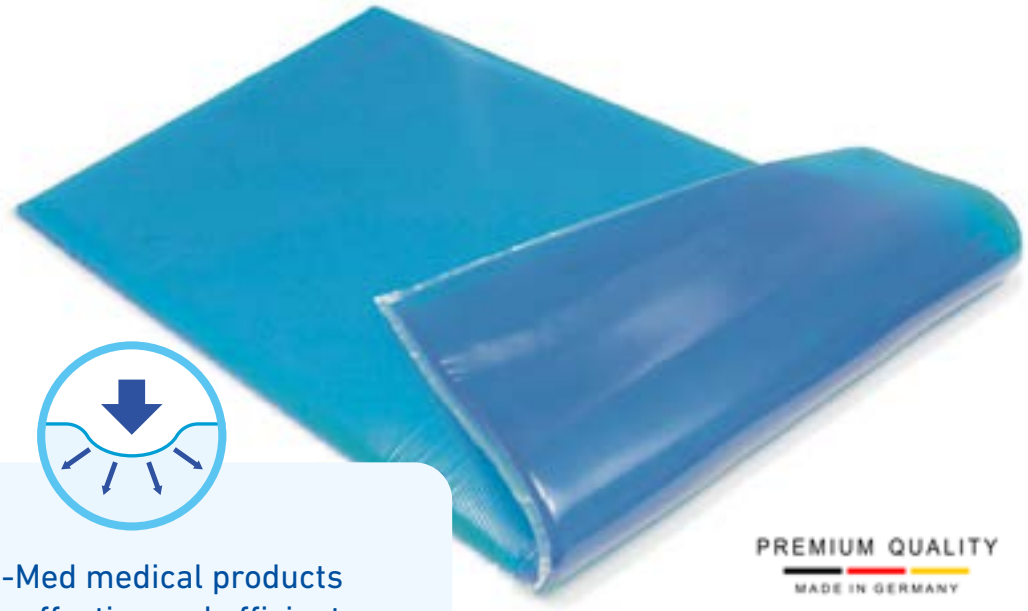

Gel-a-Med® medical products are characterized by their good skin compatibility. They are free of allergens, plasticizers, latex and harmful substances.

Suitable for positioning sensitive body parts

Gel-a-Med® medical products offer maximum protection when lying and sitting as well as during transport. The cushioning effect enables safe and comfortable positioning. An enlarged contact surface reduces and absorbs local pressure - the skin is being unburdened.

Breathable

Gel-a-Med® medical products are encased in a breathable membrane. Microscopic holes in the sturdy membrane provide a comfortable and medically favorable microclimate.

PREMIUM QUALITY
MADE IN GERMANY

CE

Gel-a-Med medical products for an effective and efficient decubitus prophylaxis

Any limitation of movement leads to an increased pressure load, which causes local damage to the skin and the underlying tissue.

Gel-a-Med® medical products are indispensable aids for positioning patients at risk of decubitus in hospitals, outpatient surgery centers, nursing homes, rehabilitation centers and in the home care sector.

Disinfectable

Gel-a-Med® products can be easily sanitized with disinfectants. Further information can be found in the instructions for use at www.gel-a-med.com

Temperature resistant

Gel-a-Med® medical products are temperature resistant from -20 C to +55 °C and adapt optimally to body temperature as well as store heat. Gel-a-Med® products remain permanently elastic and pliable even at low temperatures.

Entirely odorless

Gel-a-Med® medical products remain odorless when used as intended.

Resistant to liquids, water and steam

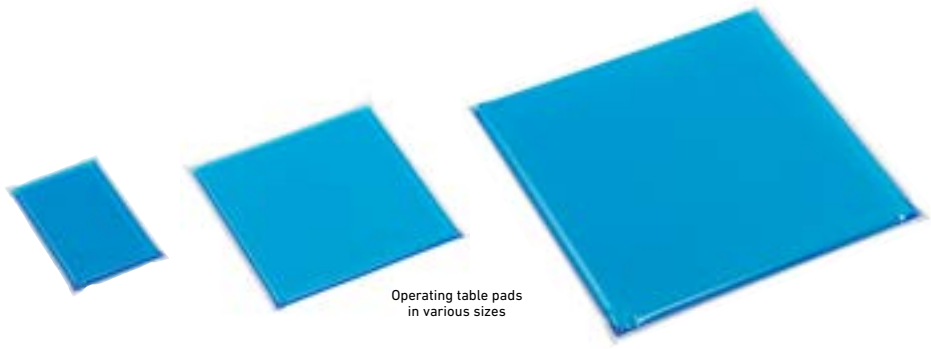

Gel-a-Med® medical products are liquid repellent, steam resistant and quick to dry after use.

Sustainable

Due to their long-lasting elasticity and structural stability as well as their good sanitizability, Gel-a-Med® medical products can be used over a long period of time, thus conserving resources.

Scar plasters

Gel-a-Med® Scar plasters / Silicone gel pads

Transparent and reusable

Our 100% medical grade silicone gel-based Gel-a-Med® scar patches are used to heal scar tissue and for the treatment and prevention of hypertrophic scars and keloids. The patch minimizes skin movement and helps to maintain the skin's natural moisture, thereby moisturizing the scar and improving regeneration.

Scar plaster

Article-No.	Description	Dimensions W x D x H	PU
M1-03560003N	Scar plaster silicone gel	3,5 x 6 x 0,3 cm	20 pieces
M1-0510003N	Scar plaster silicone gel	5 x 10 x 0,3 cm	10 pieces
M1-0520003N	Scar plaster silicone gel	5 x 20 x 0,3 cm	10 pieces
M1-1030003N	Scar plaster silicone gel	10 x 30 x 0,3 cm	2 pieces (pair)
M1-12150003N	Scar plaster silicone gel	12 x 15 x 0,3 cm	1 piece
M1-2030003N	Scar plaster silicone gel	20 x 30 x 0,3 cm	2 pieces (pair)

Application

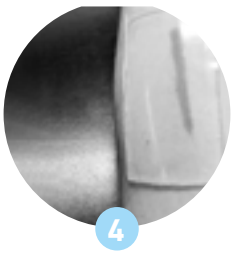

Measure

Cut

Remove transparent film

Apply

Make sure that a distance of at least 1,0 cm is maintained between the scar and the edge of the plaster on each side to ensure adequate coverage.

Wearing time

- The optimum wearing time is 24 hours a day
- The minimum wearing time is 8-12 hours a day
- The recommended duration of treatment is at least one month

Ingredients

- 100 % medical grade silicone
- Latex-free (latex-free plasters can therefore minimize many allergic reactions and have a positive effect on wound healing)

Care

- Wash the plaster after each use with warm water and mild soap and allow it to air dry
- With the right care, you can extend the life of the plaster by 2 to 3 weeks

Free samples

Order your free Gel-a-Med® product sample now and experience the uniquely efficient pressure relief through silicone gel cushions. The sample is 150 x 100 mm in size and can be used, for example, as an ergonomic wrist cooling or heating pad.

Order free Gel-a-Med sample – here's how:

- Online at www.gel-a-med.com
- By e-mail to info@gel-a-med.com

Your free sample

Made of silicone gel
150 x 100 mm
usable as an ergonomic wrist pad

Special sizes · Special designs

Special sizes can be ordered according to individual requirements. With many years of experience in medical device manufacturing, we develop the perfect product solution together with our customers. We are happy to manufacture gel components according to your specifications for further processing or for sale under your own brand name.

The possibilities are virtually unlimited:

- Freely selectable dimensions
- Freely selectable height/thickness
- Individual shape
- Individual coloring or clear/transparent
- On request with cover linen (fabric / color freely selectable)

We will be happy to advise you and look forward to hearing from you!
