CIG-BLD

Freestanding Stainless Steel Tamperproof Ciglow Flameless Lighter Bollard

---

Description
The bollard is made from marine grade stainless steel and the unit is housed in a box section at the top of the bollard. The lighter is fitted with an illuminated push button and available with anti tamper fixing screws.

Mounting Style
This lighter is available with either base plate or root mounting options. This unit requires connection to a mains power supply through the base of the unit.

Weatherproof Rating
This lighter is rated IP65 and is suitable for outdoor use in all weather conditions.

Element
This lighter uses the CIG-SL internally mounted screw-in element.

Operation
This lighter is available in manual and safety control timer option. The manual user presses the button and holds for as long as it takes to light the cigarette. The control timer user presses the push button then releases. The unit then runs through a cycle which heats up the element, switches it off, and then adds in a cool down period. The timer cannot be restarted whilst this cycle is running.

Dimensions
Height: 1200 mm (1060 mm to push button)
Diameter: 114 mm

Weight
8kg
